

POCLP-XX-P

Description

Power over Camera Link (POCL) introduces a new level of versatility to Camera Link products. Capable of carrying power through the data cable, this assembly eliminates the need for a power supply at the camera. This cable will perform in POCL as well as standard Camera Link applications.

Designed for industrial use, these assemblies are constructed with robust components that will withstand harsh mechanical abuse while transmitting high speed data.

Features

High Flex Cable designed to surpass 1 million flexes

Overmolded Connectors

Thumbscrew Locking

360 Degree Shielding

Controlled Skew Performance

RoHS Compliant

Main Product Specifications

Connectors:

3M MDR 26 Position

Cable:

Conductors:	11 ISTP	Jacket Material:	PVC
	2 Primaries	Overall Diameter:	0.385
	2 Drain Wires	Overall Shield:	Tinned Copper Braid

RoHS Status: Compliant
