Benefits

Open eVision Studio development and prototyping tool

Open eVision Studio is the development and prototyping tool of Open eVision. It includes a scripting function that generates code (C++, C# and Visual Basic ActiveX) using easy to understand menus and dialog boxes. The generated code can then be copied and pasted into your application's source code.

Quick Start Tutorials

To take your first steps in Open eVision, Open eVision Studio is delivered with new Quick Start Tutorials. They point up the main functionalities of Open eVision in a didactic way. The Quick Start Tutorials come with a large set of sample images to practice the lessons by yourself.
