\*ImmerVision does its best to test cameras on a regular basis however; camera and accessories manufacturers may implement product changes subsequent to our tests and without our knowledge which may affect field performance.

## ImmerVision *Enables*® DVR/NVR/VMS

ImmerVision *Enables* is an assertion that a recording and viewing device (DVR/NVR/VMS) can interpret 360° panoramic images from panomorph lenses, allowing users to navigate within the live or recorded image thanks to ImmerVision immersive rendering algorithms.

Vendors and Manufacturers listed below are partners in the ImmerVision *Enables* program and offer immersive viewing within their products.
