PERFECT PARTNERS FOR  
SONY IMX250/252/264/265  
SENSORS

## SMALL & TOUGH...

Designed for smart and stereo  
camera housings.

The Kowa JC5MC ultra compact lens  
series is perfect for robot vision and features a  
*ruggedized unique mechanical design* to guard  
against strong vibration and shock.

The perfect choice for harsh environments and  
where space is limited.

One of the industry's smallest and  
lightest 5 megapixel lenses.

Measuring roughly half the size of Kowa's current 2/3"  
5MP JC5M2 series lenses - the JC5MC series are the perfect  
solution for machine vision projects with limited space for  
cameras and lenses.

Complete control and flexibility.

All lenses in the JC5MC ultra compact series feature a highly  
engineered click iris function making the change of aperture  
extremely convenient from F2.8 through to F16.
